

# WRITING SCI-FI AND FANTASY (LIT STARTS)

See It, Be It, Write It|x|Improve students' writing skills and boost their assessment scores with lessons that are aligned to state and Common Core State Standards for English language arts. Students learn how to use acting and visualization as prewriting activities to help them produce lively, personalized responses. Easy-to-use checklists guide students to include specific elements in their writing and to demonstrate skills that are assessed on standardized tests. Add fun while infusing 21st century skills such as critical thinking and problem solving, creativity and innovation, collaboration, and communication. A detailed chapter on differentiation helps teachers reach all students, and dozens of complete writing prompts and reproducible forms make this a ready-to-use resource for anyone charged with preparing students for state-mandated standardized tests. Digital content includes all of the customizable reproducible forms from the book. Moe's Cafe|x|While driving with your friends or family someplace far from home, your radiator starts steaming. You manage to find a gas station in a small town where they can fix your car, but it's going to take a few hours. You ask the mechanic if there's any place to get something to eat, and he points across the road to Moe's Cafe, a real dump. You don't have much choice, so you head inside and take a seat at the first booth on the left. So begins Moe's Cafe, one of 48 innovative and intriguing prompts for student writing. These classroom-tested prompts put students in a place or in front of a character and ask them to describe what they see. The thinking, writing, and scribbling they do for the prompts inspires them to create their own stories and poems. After writing 90-word mini-stories, students read a short story or watch a film scene to help them expand on their own creative works. A section of longer readings models writing strategies. The lessons and activities reinforce and develop skills defined by the National Council of Teachers of English as appropriate for students in grades 6-12. Good Year. Joan's Junk Shop|x|Kick-start students' imaginations with these stimulating writing prompts. Each of the 48 fiction and nonfiction activities begins with a memorable place, an intriguing person, or a dramatic moment, then provides instructions, suggestions, and questions to get writers' originality flowing. In addition to the 48 extensive prompts, a list of 50 more story starters are included along with samples of students' compositions. This \"playfully practical\" follow-up to Moe's Cafe coaches students on the \"Seven C's of good writing\" as well as how to compose to NCTE and Common Core standards stories, essays, and other literary forms, serving as an excellent resource for creative writing courses and for preparation for ACT and SAT writing. Grades 7-12. Speculative Pedagogies|x|Can you imagine future learning environments devoid of the systemic inequities that stifle student learning opportunities and teacher decision-making in most classrooms today? This volume offers the necessary steps—playful, participatory, historically informed—that are required to forge a pathway from the present U.S. educational landscape to a freer tomorrow. The authors use speculative approaches to teacher education and student learning to intentionally design beyond the boundaries of traditional research and practitioner resources that seek to “fix” current schooling conditions. Building from visionary organizing and artistic traditions that have captured the popular imagination, this volume suggests new forms of engagement for diverse learners. It pragmatically explores how to work toward radical new spaces of possibility for learning and teaching. Chapters include a range of learning contexts, from problem solving in complex video game settings to innovative world-building alongside young people in schools and communities. Readers will be inspired to completely rethink what is possible when it comes to justice-oriented, culturally responsive education. Book Features: A collection of over 40 contributors explore speculative education across a range of research settings. Examples of digital learning that include videogames and online collaboration. Multiple chapters that feature co-authored research and innovation with students and teachers. Innovative design and pedagogical strategies, including a chapter re-writing policy documents based on speculative imagination. Designing Effective Writing Prompts for English|x|Seminar paper from the year 2010 in the subject English - Pedagogy, Didactics, Literature Studies, grade: 1.7, Southern Illinois University Carbondale (Southern Illinois

University at Carbondale - English Department), course: English Composition Pedagogy and Practice, language: English, abstract: A teacher has to create a work-friendly environment that engages students to participate in and become a part of the classroom activities. Since I have had some teaching experience, I know that this is the most daunting task the teacher is confronted with. Furthermore, this is a task the teacher has to fulfill every day anew. No lesson is the same, and today your class can be totally different than the day before. Students' attitude and participation in the classroom can fall from astonishing to frustrating within moments. To be aware of the classroom vibe is most crucial to teaching success. Standing in front of the classroom, the teacher has to be able to adapt to the students' condition, to engage with them and to arouse their interest; in short, the teacher has to be aware of his or her audience. As a teacher, you need to be able to open a communicative channel that allows you to convey your message adequately and at the same time reach your students. Both speaker and recipient have to feel comfortable with the channel and must be interested to keep this channel open. When this communicative approach becomes one-sided, the teaching will fail; either the teacher will not be able to perform in a comfortable way, or the students might not be willing to receive. This can be avoided if both sides cooperate with each other by "make[ing] your conversational contribution such as is required, at the stage at which it occurs, by the accepted purpose or direction of the talk exchange in which you are engaged" (Grice 24). Grice talks about five maxims of conversation that need to be respected to provide a fertile ground for conversation.

**Dream Writing Assignments**  
 Creative questions elicit creative responses. That's what English teacher David LeCount demonstrates in this collection of quirky, provocative writing prompts designed to release students from standardized writing assignments. More than 600 prompts serve as multidisciplinary opportunities for students to write creatively. Dream Writing Assignments can be used in two ways: as a practical, flexible, and handy resource for teachers who are looking for creative topics to assign, and as a stimulating student text. The prompts encourage students to research, reflect, and explore; engage in wordplay; and experience writing as a form of discovery and delight. Think of the results if you should invite your students to answer the following questions: How are violence and intelligence related? What is your idea of the perfect experience of beauty or happiness? If greed is an addiction, how can it be cured? More than a list of topics, Dream Writing Assignments includes student writing samples, plus principles and examples of masterpieces of Asian literature woven throughout the prompts. Haiku is a favorite of American teachers, and LeCount uses his expertise in this short verse form to offer some examples for the curious to try their hand or refresh their thinking. Use the prompts so students can discover their own voices. Shake them from their daily, routine minds and awaken them to a world where their imaginations can roam.

Sarah, Plain and Tall Reader Response Writing Prompts|x|Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, Literature for Young Adults includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy format in their own right--and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language--including traditional elements as well as metafictional terms--enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading. Using Apps for Learning Across the Curriculum|x|NORMAL PRICE \$21.95! The authors apply their expertise to a range of issues from international testing to policy challenges related to curriculum on the state and national levels. This volume positions ongoing debates within the wider context of an education landscape struggling to displace junk-science ideology with empirical research. The scope and sequence combined with the expertise of the contributors make this volume a vital resource for educators at all levels during a pivotal time of major changes in education policy. 40 Writing Prompts with Graphic

Organizers|x|This book discusses pedagogical solutions that enable students to see how capitalist processes and economic inequalities intersect and shape our assumptions and behaviours. The contributors provide thoughtful reflections on the struggles and opportunities instructors face in teaching about these topics while competing against the invisibility of capitalist forces and prevalent social myths, such as “anyone who works hard can achieve”. This book will not only help instructors empower students to recognize economic injustice and its interaction with capitalist organization, but also develops and acts on transformative solutions. Through analysis of the classed dimensions of the current political, economics, and cultural climate, as well as presenting novel lesson plans and classroom activities, this book is of great value for college and university professors.

Writing Prompts, Grade 3|x|The Longman Writer's Journal provides students with their own personal space for writing. It contains helpful journal writing strategies, sample journal entries by other students, and many writing prompts and topics to get students writing! Free when valuepacked with any Longman English title.

Education Policy Perils|x|This book focuses where assessment has greatest relevance—the classroom. A great deal of research related to assessment is focused on ‘the testing industry’, high-stakes language proficiency testing, and related analytical and statistical reports that are far removed from teachers’ and students’ experiences in the classroom. Recently, more attention has been paid to assessment in language classrooms and the many challenges that teachers face in both measuring and promoting student learning. This book contributes to the body of knowledge related to teacher assessment competence, and how it is manifested in the decisions they make about assessment procedures and instruments in their classes. Focused on specific challenges related to classroom assessment, each chapter reports on particular assessment issues faced by teachers, their choices regarding such issues, and the consequences (actual or anticipated) of their decision-making. This book will interest the thousands of teachers globally dealing with the numerous challenges associated with effective classroom assessment in language learning. This collection of teacher voices, stories, and investigations provides possible solutions to such challenges, and will serve to promote assessment literacy in the language teaching profession.

Teaching Economic Inequality and Capitalism in Contemporary America|x|Presents pedagogical approaches to the teaching of ESL composition in the framework of current theoretical perspectives on second language writing processes, practises and writers.

Making Sense|x|Great writing prompt journal for kids between the 3rd and 5th grade. Perhaps you have a child who loves writing and wants to develop their skills. Or perhaps your child is a reluctant writer who needs to practice writing essays and stories to keep up with their peers. Whatever the case may be, you'll find this journal filled with writing prompts is perfect for improving children's imagination, creativity, reading skills, vocabulary and comprehension. The writing prompts in this book are ideal for children in the 2nd, 3rd, 4th and 5th grade, but older students will also enjoy the interesting topics and fun story-starters. This is an ideal book for parents looking for a way to extend their child at home. What's more, the finished journal makes a fantastic keep-sake. If you homeschool or tutor a child, this is a great way to get their creative juices flowing. Teachers will love this brilliant book of prompts with a topic for every occasion. You'll never run out of creative writing ideas and interesting story starters. This book is a great gift for aspiring writers. Here are a few examples of great prompts in the book: You blow out your birthday candles and make a wish. Immediately the wish comes true. What did you wish for? What happens? Your dad is a scientist. One of his top-secret projects is to bring the dinosaurs back to life. He's brought a baby dinosaur home from the lab. How do you look after it? What type of transportation will people have in the future? A strange little door appears in your bedroom. You can squeeze through the door if you try. What do you find on the other side? Writing prompts include interesting story starters, but also 'would you rather' questions (like would you rather be able to fly or be incredibly strong) and persuasive essay topics to improve debating skills.
